

**MINERVA SUMMER SCHOOL 2012:
SCHEDULE**

The school will have 5 minicourses, each of which consists of 4 lectures (the two courses by Manfred Einsiedler should be seen as a unit). The courses and lecturers are:

- ET:** *Introduction to Ergodic Theory* by A. Furman
- AV:** *Ergodic Theory and rigidity of lattices* by A. Gorodnik
- FS:** *Flows on Surfaces* by M. Einsiedler
- RT:** *Ratner's measure classification theorem* by M. Einsiedler
- BQ:** *Stationary measures on homogeneous spaces* by J.-F. Quint
- SL:** Two special lectures by E. Lindenstrauss
